

- In the event of a tie for any of the places eligible for prizes, the player who earns the most money during the series takes the higher finish place.
- Players earn points for cashing in any of the eligible open-field tournaments. No points are earned for 'Paying the Bubble.'
- Players who agree to bring a tournament to its end with any alteration of the posted payouts all tie for the next payout spot. For example, If 5 players chop (even, via ICM or any other way) all players tie for 5th place points.
- Players can earn points only for their best finish place in multi-flight tournaments.
- All tournaments must play to the posted pay table to award Player of the Series Points. Example: a tournament scheduled to pay three places that chops 5 ways and comes to an end, does not earn Player of the Series points for any individual.
